llegal & Dangerous Drugs

Stimulants (cocaine, amphetamines): False alertness

Depressants (narcotics, weed): Slow reflexes, drowsiness

Hallucinogen (weed, LSD): Alter perception—deadly behind the wheel

Drugs + Alcohol = Danger Multiplied

• Mixing = stronger, unpredictable effects

Drugs + Alcohol = **Danger Multiplied**

- Mixing = stronger, unpredictable effects
- Bad judgment + slow reflexes = disaster

Emotions Can Impair You Too

Anger, sadness, excitement mess with judgment

Emotions Can Impair You Too

- Anger, sadness, excitement mess with judgment
- Don't drive upset—call a friend, take a break, or delay your trip

Fatigue = Impairment

No sleep? That's like driving drunk.

Fatigue = Impairment

- No sleep? That's like driving drunk.
- Rest is the only fix. Energy drinks won't help.

Impairment=Deadly Driving
